Step into my senses  
Shatter all my darkness  
Find this cure for sadness  
You exhaled like an injection  
So have this girl in ruins

[Chorus:]

I've fallen faster than ever, after  
I swore I'd never escape disaster  
Fallen faster than ever and you're  
Here to take it all away

When all failed to draw me from desecration  
Your sensation filled my lungs  
A stare like a thousand stars  
That blinded me of harsh reality

[Chorus]

[Bridge:]

Fallen faster than ever after  
I swore I'd never escape disaster  
Fallen faster than ever after  
I swore I'd never escape disaster

[Chorus]
