Woah! I feel alive and well
I'll be the last soul breathing in this world
Never thought that I could last forever
Under skin, I've got a heart made out of
Chrome and ice
Light dissolved before your eyes
But I'll breathe till the end of time
Can you feel my...

Angel eyes
Burn through you like cyanide
My words are laced in venom lies
No pain inside

Try to kill me now
(You're chasing?)
Closer now
But now I fear I hate this life
I can't replace this time I've wasted
Try to kill me now
Well you're not
Strong enough
Your finding I'm
Dead serious
And oh, so sick...
Dead serious
And oh, so sick...

I try to get over my fear of falling
And calm the rage inside
Medicate my nerves so I can't feel this
I was lost but I was only human
I'm alright
Now I can't feel a thing
Only fear in life is living
A heart made of chrome and ice
I can't feel this plastic life

My angel eyes
Burn through you like cyanide
My words are laced with

Venom lies
No pain inside

Try to kill me now
(You're chasing?)
Closer now
But now I fear I hate this life
I can't replace this time I've wasted
Try to kill me now
Well you're not
Strong enough
Your finding I'm
Dead serious
And oh, so sick...
Dead serious
And oh, so sick...

Try to kill me now
(You're chasing?)
Closer now
But now I fear I hate this life
I can't replace this time I've wasted
Try to kill me now
Not close enough
I hate this
I can't replace this

I feel the ice...
