chicago green, talkin' 'bout Black Lebanese
A dirty room and a silver coke spoon
Give me my release, come on
Black napalese, it's got you weak in your knees
Just seeds and dust that you got bust on
You know it's hard to believe

30 days in the hole
That's what they give you
I know

Newcastle Brown, I'm tellin' you, it can sure smack you
down
Take a greasy whore and a rollin' dance floor
It's got your head spinnin' round
If you live on the road, well there's a new highway code
You take the urban noise with some dirt and poison
It's gonna lessen your load

What you doin' boy?
You here for 30 days
Get, get, get your long hair cut
And cut out your ways

Black napalese, it got you weak in your knees
Just seeds and dust that you got bust on
You know it's so hard to please
Newcastle Brown can sure smack you down
You take a greasy whore and a rollin' dance floor
You know you're jailhouse-bound

30 days in the hole
