We'll ride the chariot into town, it dies today when we  
throw down  
We'll sing the melodies that you hate  
Just turn your back when we don't scream

[Chorus:]

Any other time I would be laughing at this odd situation  
But don't get me wrong please don't think that I do not  
care at all  
In a town where anything could happen, there's an  
alternate story  
Tell me it's my fault just tell me anything but nothing at  
all

Wake me under starlit skies  
Follow me to where we'll hide  
We'll leave tonight  
In dreams of darkness I often saw what I thought  
were people's lives being taken in their homes  
But I would never imagine taking a life  
Because I belong

You hear the same thing every day  
Open your mind and try a  
change  
Wait  
What makes a melody turn your face?  
Can you handle this one?

[Chorus]

So I'm the catalyst for fear  
The reason death hangs in the air  
I did not know  
If I could kill you then why'd you stay by my side?  
Why forgive me when I could take your life?  
But you believed I could change  
And made it alright  
That I belong

You forgave me when you knew I'd kill you

I'm sorry

Halleluiah
