Come my demons,  
Come my friends  
Come my demons,  
Try again

Once you hurt me,  
Once you made me  
Break down  
Lose my mind

Come my demons,  
Now I'm ready  
Come my demons,  
You can't hurt me

Try to trick me,  
Try to make me  
At first you push me  
Then you fool me

Come my demons,  
Now I'm ready  
Come my demons,  
You can't hurt me

Now I'm singing,  
I'll be strong  
I've come to take back  
What belongs

Come my demons,  
Come my friends  
Come my demons,  
Try again

Ooooh...Woooo...Ooooh...woooo...
