Madness, fear, visions, blood  
Religions, blindness, victims of lies  
Mass, relics, gods, blessing  
Demons, horns, by cross raped mouth  
Dogma, dogmas, dogma  
Ritual, morbid thought of sin  
Murderer wait to stab with hate  
Devilish trance, lead you to aim  
The crown of thorns  
Still deep in his skull  
Saintly old man meditating talks  
To a wooden idol  
And seeing growing black rahitic  
Horns of the scapegoat  
Saintly old man meditating begs  
For the Christian mercy  
When he sees the infernal lava  
Flowing out from tombs
