due SOUTH theme - Jay Semko
(by Jay Semko & Bryan Potvin)

High winds in northern sky will carry you away
You know you have to leave here
You wish that you could stay
There's four directions on this map
But you're only going one way
Due South (that's the way I'm going)
Due South.....
Saddle up my travelling shoes
I'm bound to walk away these blues
Due South.....

You could walk a hundred thousand miles and never
find a home
You always knew someday you'd have to strike out on
your own
You look up at the clouds and you can see which way
the wind is blowing
Due South (that's the way I'm going)
Due South.....
Saddle up my travelling shoes, I'm bound to walk away
these blues
Due South.....

Due South..... (that's the way I'm going)
Due South.....
Saddle up my travelling shoes, I'm bound to walk away
these blues
Due.....
Saddle up my travelling shoes, I'm bound to walk away
these blues
Due South.....
Due South.....
Due South.....
