Now I'm so glad to know they've all just gone home  
'Cos finally we're here alone at last  
Now our desires have been held back for hours  
Our emotions run strong  
Like the trade winds off the shores

Chorus:

And I can't wait a minute, wait another minute at all  
You've got me climbing up the wall  
And I can't wait a minute, wait another minute at all  
You've got me climbing up the wall  
The TV cast shadows that flicker on the walls  
And it reminds me of the lake on a summers night  
Let yourself fall into my caramel vortex  
You don't have to be afraid  
We'll be safe as we twist

Chorus

You got me climbing up, you've got me climbing up the wall  
Now that we rid out we guests its  
Time to raise some hell  
Inna mi fridge mi have a bowl of cherries  
And some white zinfandel  
If you want some love spectacular  
Lay back and relax 'pon mi sofa  
Same thing the chorus all say  
Rude bwoy now 'pon de replay  
You've got me climbing up, you've got me climbing up the wall
