I went outside to catch the snow.
Ice is raining.
Ice is raining.
(snow)
Ice is raining.
Ice is raining.

I went outside to catch the snow.
How far will I go to protect my hide?
Protect my...
How far will I go to protect my hide?
Protect my...

I went outside to catch the snow
Ice is raining.
Ice is raining.
(snow)
Ice is raining.
Ice is raining.

I went outside to catch the snow.
How far will I go to protect my hide?
How far will I go to protect my hide?
How far will I go to protect my hide?
How far will I go to protect my hide?

As I seal myself inside,
The zippers catch my skin.
And as I waddle towards the doorway
A freezer hits me.
As I stumble from my house,
I reach down for the sled.
And as I start to shape my weapon,
A cold one hits me!

I turn around and walk back home.
I turn around and walk back home.
I turn around and walk back home.
I turn around and walk back home.
