VERSE:

I found myself in a new direction at heart
Now it don't matter what your thinking of

CHORUS:

I really don't care
What you got to say to me
Don't say a thing
Don't you even look at me

VERSE:

I found myself in a new direction at heart
Now it don't matter what your thinking of
Sliding down you do your best
Gravitate now to the mess
Thinking silent treatment to piss me off

CHORUS:

I really don't care
What you got to say to me
Don't say a thing
Don't you even look at me
Tell all your friends
They can go and fuck right off
Now I don't understand
Why you gotta talk to me

BRIDGE:

BRING DOWN THE PAIN

VERSE:

I found myself in a new direction at heart
And it don't matter what your thinking of

CHORUS
