Why was I the last to know?  
That you weren't coming to my show you coulda  
Called me up to say "Good luck"  
You coulda called me back you stupid fuck  
Why was I the last to know?

First date, we ate Sushi and  
It went well, I was funny and  
You said I was a cutie  
That's the last thing I heard from you

I left the tickets at the door for you  
I had to tell my mom that there was no more room  
You didn't show, that was so uncool  
You coulda called me back

So I guess this means that we're  
Not friends anymore, I heard  
It's me you're asking for, I thought  
I'd see you at the show you said you'd go

Why was I the last to know?  
That you weren't coming to my show you coulda  
Called me up to say "Good luck"  
You coulda called me back you stupid fuck  
Why was I the last to know?  
Why was I the last to know?

After the date, I wouldn't go home with you  
I wouldn't put my heels in the air for you  
You tried to get me to do things I just won't do  
Last I heard from you

Here is how I guess the story goes  
You woulda came if I was a hoe  
Fuck for parts that's just not how  
I roll, move it on down the road

So I guess, we shouldn't have been  
Friends anymore, sick of hearin'  
That it's me you're askin' for  
'Cause I thought I'd see you at the show

You said you'd go  
Why was I the last to know?

That you weren't coming to my show you coulda  
Called me up to say "Good luck"  
You coulda called me back you stupid fuck  
Why was I the last to know?  
Why was I the last to know?

You thought you know me  
I guess you didn't  
You thought you had me  
I think you didn't  
You thought you knew me  
I guess you didn't

Why was I the last to know?  
That you weren't coming to my show you coulda  
Called me up to say "Good luck"  
You coulda called me back you stupid fuck  
Why was I the last to know?  
Why was I the last to know?  
Why was I the last to know?

The last to know  
Why was I the last to know?  
Why was I the last to know?  
Why was I the last to know?  
You coulda called me back  
Last to know
