"Where The Eagles Learn To Fly"

Visit "[Where The Eagles Learn To Fly](#)" on MotoLyrics.com

Somebody's out there in the cold
Freezin' and starvin', I've been told
Breathin' the air we are breathin'
Somebody's out there in the heat
Livin' in dryness and in need
Breathin' the air we are breathin'
Oh Lord, would you please have a heart
Love is so far away
Take your child to a place where no one cries
To the place where the eagle learns to fly
Only there will we find everlasting peace of mind
In the place where the eagle learns to fly
Somebody's stricken by disease
Hopeless and prayin' on his knees
Breathin' the air we are brathin'
Somebody just like you and me
And now he's gone, so who was he
Breathin' the air we were breathin'
Oh Lord, would you please have a heart
Love is so far away
Take your child to a place where no one cries
To the place where the eagle learns to fly
Only there will we find everlasting peace of mind
In the place where the eagle learns to fly
Oh Lord, would you please have a heart
Love is so far away
Just so far away
Take your child to a place where no one cries
To the place where the eagle learns to fly
Only there will we find everlasting peace of mind
In the place where the eagle learns to fly
