All day, I listen to this shit.
I'm sick of everything they did.
I know it's nothing in the end.
Let's go (go!) and bring all of our friends.

And I'll never get caught up with you again.
I don't want to fall into this life.

All night, I think I'm gonna stay,
Alright? I'll party either way.
I know this time will never end.
Let's go (go!) and do it all again.

And I'll never get caught up with you again.
I don't want to fall into this life.
Your words are so pointless. I don't understand
Why you're spending all your time,
Just trying to prove what is right.

(Let it go!) Don't throw away your life!
(Let it go!) Forget it all tonight!
(Let it go!) Don't throw away your life!
(Let it go!) Forget it all tonight!
