Weigh the options one by one  
Who are we taking orders from?  
What is standing in our way?  
Where are the warriors today?  
If we're to be the proud and strong  
It's our job to carry on  
Hang in there 'till the job is done  
We have only just begun  
We'll work together  
We will never turn our back  
We're going down with the ship  
A new future is staring you in the face  
How could you refuse it?  
Never overlook your friends

We are with you 'till the end  
Don't let it all get to you  
We've so much to look forward to  
There's still tables to be turned  
There's still a message to be learned  
There's still a cause for you to fight  
There's still a reason to unite  
I've had it up to here  
Our differences won't disappear  
Anyone can go and fight  
But it takes real courage to unite  
WHERE ARE THE WARRIORS TODAY?
