Oswald is in the library  
But he's got the face of an "injun" cheif  
Buying Manhattan for twenty six beads  
I was lookin' at my watch just the other day  
It said doomsday is just a couple years away  
That ain't much time to halt the crime of whores

There's no more heroes, there's no more justice  
White collar crime from the office

In my state you make sixteen grand  
To even camp in poverty land  
What if you're only makin' twelve  
Then where you gonna dwell  
They made me buy my food with stamps  
Meanwhile reservations die  
Capital don't care if your skin is red or white

We got crooks in power in the USA  
Modern day whiskey, green paper cocaine  
The pied piper had a parade  
Led the founders to their grave  
All that's left is a land soaked with guilt and blood  
I ain't never been out there  
But I bet it's the same as here  
Hope got cancelled years ago  
For the Ronald Reagan show  
They're the real mohegan clan  
Not us spikes in whitey land  
They were first to live without the law
