V1

Sitting at the docks waiting to do it
Theres no other way we can get through it
We pass the 'P' around, and gonna go on ten,
Turn round, theres you again.
Burned out Cuban, we all sit
Theres no other way we can get through it
About to rest my head,
Turn round, theres you again.

C

Cartoons and Kindereggs are all you'll ever need,
And if you don't sort yourself thats what you'll always
see
Have you ever wanna kill yourself?, I hope you now
believe,
Remember when you nearly died coz that good guy
was me.

V2

Standing on the edge waiting to do it
Theres no other way we can get through it
We pass our thoughts around and gonna go on ten,
Turn round, theres you again.
Daves in the shop and he is gonna hit
Theres no other way he can get through it
He picks him up and he is gonna go again,
Turn round, theres you again.
