V

If you had a friend, your life could have changed
around,
But doing junk was the only friend you found.
When your mother died of an overdose,
I would have thought that you wouldn't come even
close.

C

[Why didn't you learn?] Took your brother
[Why didn't you learn?] Took your mother too
[Why didn't you learn?] Could have saw it coming
[Why didn't you learn?] Now it's taken you.

V

If you had a friend, your life could have changed
around,
But doing junk was the only friend you found.
When your brother died of an overdose,
I would have thought that you wouldn't come even
close.
