V1

Sitting at the docks waiting to do it  
Theres no other way we can get through it  
We pass the 'P' around, and gonna go on ten,  
Turn round, theres you again.  
Burned out Cuban, we all sit  
Theres no other way we can get through it  
About to rest my head,  
Turn round, theres you again.

C

Cartoons and Kindereggs are all you'll ever need,  
And if you don't sort yourself thats what you'll always  
see  
Have you ever wanna kill yourself?, I hope you now  
believe,  
Remember when you nearly died coz that good guy  
was me.

V2

Standing on the edge waiting to do it  
Theres no other way we can get through it  
We pass our thoughts around and gonna go on ten,  
Turn round, theres you again.  
Daves in the shop and he is gonna hit  
Theres no other way he can get through it  
He picks him up and he is gonna go again,  
Turn round, theres you again.
