A darkened, dim-lit hallway 'till
Blacklights and figures fly out
Perfect expression of theater
And how I've tasted my on blood

And I've taken and you've given
Wilting away And it won't be long 'till
My visions are clear And the passion,
The bodies, sucks you in I feel
This violence consume me endlessly
I can't leave the sight of this for
Retrospect And tingling with the gain
I seem all small with darkened-eyes
that gives us power over souls

I can't leave the sight of this for
retrospect, failings, failings, failings,
And failings, failings, failings

I've been allotted night, the other thing is
The flesh at risk y'all keep nothing for me
I will do right, to raise this flesh y'all
Bring nothing for me

Enter a building of fear to please show them
How to live, white-eyes are burning your skin,
With the envy of the dead

And I've taken and you've given,
Wilting away And it wont be long until
my visions are clear and the passion,
The bodies, sucks you in I feel

This violence consume me, endlessly
I can't leave the sight of this for
Retrospect and tingling with the gain,
I seem much more with darkened eyes,
That gives us power over souls

I can leave my ignorance behind with you
Failings, failings, failings,
And failings, failings, failings

As light then fills the sky with tears
When boiling light hits the skin, erase the
Memory of the light, ignore the object above woods

Midnight, I pray that this is much more
Than a dream, my little door to worlds
Has damned us all to hell

Every time I look into the mirror,
I see it in my face
I'm possessed by the goblin child
Who'll destroy the human race, though,
I haven't forgotten hope
I know the ancient lore,
God will strike me down
To Hell, forevermore

Into the burial shroud,
(Ignore love and peace)
With his mark upon my flesh
(Ignore love and peace)
So beat the darkest heart
(Ignore love and peace)
Beyond a careful wall
(Ignore love and peace)
