A guilty kiss goodnight to you
And I'm not sorry 'cause I had to
And now that you're leaving I know
I can't let go
Come back to me when you turn 23
maybe then you'll see what it feels like to be in love
with me

Now you know where I stand
This gun is loaded and it's cocked in my left hand
Waiting for this pain to end
I know you will never see this fucking face again

So this is it for you and me
A chapter closed and now I'm free
I'm sick of faking it

Another day yeah
The things you say yeah
And I just to be there when you drop down to your
knees
So I can finally say Fuck you!

Now you say you're sorry.
But its too late cuz I'm not waiting
