Why you gotta say the things that you don't mean in
any case

I know you lied I'm sick and I'm tired
of having to look at your sorry face
I feel your lips but I hate the taste

Never gonna get it back
Never gonna get it back again oh yeah!

You say hey Nick I think this has got to end
Well yeah, after all you slept with my best friend
Now I wish I had cut you off before you whore
Those tears I see theres no need to pretend

Never gonna get it back
Never gonna get it back again oh yeah!

(I'm so sick and tired)
Can't you see the things you've done to me
