There's sufferness about suppose to be
I know that all from yours don't take it out on me
I'm not afraid to try, I'm not afraid to dream
And when it all goes wrong were gonna free to dream

Cuz the future now is ours we make
Oh oh shout it out

Get ready cuz we lock it around
Scream it on and make some noise
Don't tell me we should turn it now
Scream it on and make some noise
Make some noise
Make some noise
Make some noise
Make some noise
Make some noise

Enough and in in me
You might be surprise
We need it becuz we seen to open up your eyes
We don't need your rooms, don't need your uniforms
Cuz we sew it on we will be in on

Cuz the future now is ours we make
Oh oh shout it out

Get ready cuz we lock it around
Scream it on and make some noise
Don't tell me we should turn it now
Scream it on and make some noise
Make some noise
Make some noise
Make some noise
Make some noise
Make some noise
