Nine to five a.m.

Gonna party all weekend

I got your message but I ain't got time

So much stuff to do

Girlfriends keeping me from you but

I wanna see you

Honey that's no lie

Chorus:

Ain't no way ain't no use

Cos I'm officially yours

Kick your fears baby you can't lose

Cos honey I'm not the girl gonna do you wrong

Ain't no doubt always true

Cos I'm officially yours

Always give my love to you

Baby all night long

Boy you that I

Always like to socialise

But that don't mean

That I'm not down with you

This girl's got to be

Who she is cos this is me

Who says it means that I'm gonna do

What the other girls do?

(Chorus)

I can't deny that I wanna be, oh

Everything that you need from me

Just relax oh baby can't you see

Don't have to follow me

You got my honesty

So don't you worry

Cos I'm gonna treat you right

No situation

No need to fuss and fight oh no

(Chorus x2)
