STAND UP

In desperate times we search for the right
But can you look them right in the eyes
You say you think it'll be all right
I'm here to tell you
You were given a choice
So learn how to fight

With a shallow mind we'll conquer the world
With a shallow mind we'll be all right

But take a look at the world
And what do you do
NOT ENOUGH

Not enough for the world
It's time we got to
Save yourself

THE WILD IS OURSELVES

With a shallow mind we'll conquer the world
Running further from nature
Isn't that absurd
Full time livin' at Disneyland
Don't you get it man
We're all fuckin' animals
Don't you understand

In desperate times we search for the right
We're given a choice
So learn how to fight
SO PLEASE - TRY TO SAVE YOURSELF
