"Progress Bomb"

Visit "Progress Bomb" on MotoLyrics.com

There is no need for apologies
Destroy, destroy technology

The progress bomb wants to save us all
THIS IS IT

The time, eliminate
Beware, beware unconscious states
Darkness around us
No kings and no gods
The choices are all up to you
Destroy the religion of modern excess
And say that you'll fuck all the rules

The progress bomb wants to save us all
THIS IS IT
The progress bomb
The time has come to tear it down

Until we see our fate
These days are gone
No time to think
Where did we go wrong?
And when did we wrong, so lost we forgot to find our
souls
No technology's not sovereignty
It's not the means to an end, it's just shit
Until we see our ways
These days are gone
No time to think
You're not fuckin' god

The progress bomb wants to save us all
THIS IS IT
The progress bomb
The time has come to tear it down
