"Risin' up"

Why lives are cast in the waves of days
Numbness feeling redemption - wakes the pain.
King factory setting rates of fate
Unattended infections
Wise up, time to testify.
Wise up, time to mystify.
Wise up, time for us to try.
Reversing alienation

I'M DROWNING, into abstraction.
I'M DROWNING, down to where we wanna be.
I'M DROWNING, into abstraction.
I'M FLAILING OUT.

We're gonna rise up 'til we suffer, going to rise up to
our knees.
They're gonna let us rise up 'til we suffer, going to rise
up to our knees.
They're gonna let us rise up 'til we suffer, going to rise
up to our knees.
They're gonna let us rise up 'til we suffer, going to rise
up to our knees.
But I'm gonna stand.

White towers of bits - stacked into the flames
Lies for turning dissention builds the day
Wiped mind of the modern age
Cries for something to mention
Wise up, to the trampled mind
Wise up, time to realign
Wise up, to the chalking line
Mark the death of aggression

I'M DROWNING, into abstraction
I'M DROWNING, down to where we wanna be
I'M DROWNING, into abstraction
I'M FLAILING OUT

We're gonna rise up 'til we suffer, going to rise up to
our knees.
They're gonna let us rise up 'til we suffer, going to rise

up to our knees.
They're gonna let us rise up 'til we suffer, going to rise
up to our knees.
They're gonna let us rise up 'til we suffer, going to rise
up to our knees.
But I'm gonna stand.

It's doesn't have to be this way.
Break the bottled dissention.
Wage the war-tearing normalcy.
Explosion causing attention

Tear down the factory.
Tear down the factory.
Tear down the factory.
Give back our broken lives.
Tear down the factory.
Tear down the factory.
Tear down the factory.
Tear down the limits of your life.
