You think you wear the latest fashion
You're always talking style
But when it comes to knowing yourself
You're always in denial

You're feeling happy for your, happy for your life
Your feeling's not enough
You're feeling sorry for your, sorry for your life
Your feeling's gone

So much part of the in-crowd
You'll fuck me if I drive a nice car
Your life's one big illusion
You're not a fucking star

You're feeling happy for your, happy for your life
Your feeling's not enough
You're feeling sorry for your, sorry for your life
Your feeling's gone

You think you wear the latest fashion
You're always talking style
But when it comes to knowing yourself
You're always in denial

YOU'RE FAKE
You live a lie
YOU'RE FAKE
I hope you die
YOU'RE FAKE
You live a lie
YOU'RE FAKE
I hope you fucking die
