Here comes the bang

Here's an attempt to synthesize the thoughts you've
come to realize
With that of any chance of doubt that we all struggle in
this life

Not wanted (x4)

Here's an attempt to dramatize the pain you've come to
realize
No finding commonalities with any decorated side

Not wanted (x4)

Silence all apologize, all apologize
Silence all apologize, all apologize
Here comes the bang

Ensure communicate decline, ensure communicate
demise
Said sins seven passed in time - blood, love, hate, and
tears with open eyes

Not wanted (x4)

Silence all apologize, all apologize
Silence all apologize, all apologize
Here comes the bang

Not wanted (x3)

There's got to be - someone waiting for me
There's got to be - something waiting for me
There's got to be - someone waiting for me
There's got to be - something in this life I won't pretend
to fuckin' care for

Not wanted (x4)
Not wanted at all (x4)
