"For What It's Worth"

I live to need and need to feed
Just come and see the life and all that's real

Save the weak - and stand to speak
Survive - we have the strength to fight
BReakdown - these words are all in fake
Unchained - it's time to stay away
Take Heed - You can't come down on me
Release - The wrath that has to be

For what - it's worth at last you see
No time- the waste of life diseased

For wat it's...

You know it's real, Confidence revealed
You know we feel, our suffering concealed
You know it's real, confidence revealed
You know we fee, our suffering concealed
