What's held inside
No fear to hide
Death spreads his wings
Evil seeping in

Feel me deep within
Your skin burns with sin

Right - I see you
Right - I'll feel you
Right - I'll touch you
Right - I'll steal you

You can't run from me
Sign your life down
I will possess you
Visions of hell inside

I'll see you runing
I'll see you hiding
I'm going to find you
And then I'll kill you

There's no denying
I am inside you
There's no escaping
I've come to take you

My wrath is growing
And slowly burning
I'm in your body
With no one knowing
