In a lonesome wasteland  
With a worried mind  
Looking for some answers  
Mankind left behind  
A land laid out before me  
hardened to the core  
I wish that I could go back  
to the place I was before  
sometimes listening so loud and clear  
Seems to fade away

I don't lie to look at you  
please just stay away  
My vision tends to fray so fast  
I don't even care  
Wasteland Wasteland  
Double up cross in this wasteland  
Double up cross in this wasteland  
Double up cross in this wasteland
