Its mysterious it's blind faith
This way i feel for you. love me last take my hand
daddy i dress for you

Do you feel the same way.
Feel the same way
Same way that i do

Its godflesh it's moments touch this scent i have for
you i know im wrong the
Feel is strong
Explain. no not to soon

[chorus]

Worshipping the ground that you walk on and it's
wrong
Capturing this feeling deep inside this song.
Expressing all my feelings this bloodline seems so long
I'll end it with a kiss a kick a punch no more

Its sysyncopation a generation 20 years to soon
A crazy wish a burning itch. now leave me alone you
