Time never was as they are for me
Im happiest in a world full over error
Time breaks my heart chnaged my soul again this time
my friend

Excuse im wrong
But i need some encouraging
Thank you for being so bold
So catch me when i fall
So i need your touch beside me
Thank you for being so bold

And armed with your look that's my fault i see
And safe in your world. full of time full of pressure
Time breaks my heart chnaged my soul again this time
my friend

[Chorus]
