Get up !
Brutality, in action
Be me becoming an animal
Blue eyes, bloody sight
Ready for a fatal fight
Maniak !
Anal way to explain you
This hate I feel is all for you
Prepare yourself to be killed
Time has come for me to crush you
Get up !Wake up !

Maniak !Born to kill...
Maniak !Born to kill...

Slave to violence
Destroyer of innocence
Genetic decadence
Rituals ,voodoo dance
Maniak !
Rape flashes ,mad obsessions

Sodomy, strangulation
Watch your movie stars on t.v
Let me paint unforgiven scars on your skin
Get up !Wake up !

Maniak !Born to kill...
Maniak !Born to kill...

High level of adrenaline
Let me push you down into your coffin
Mouth open, still hot breath
Disillusions, death is real
Maniak !
The bloody color of your red fluid
Lay in a bed of hemoglobin
By killing you I build myself
Your dead sight reflecting my face !
