It's all about me and you
You and me and three of your girlfriends
And I say uhh baby,
The things that we can do baby.
The things I'll do to you baby.
The things you'll do to me baby.
Cause there's something about your body,
That makes me want your body, baby

454, block, drop, top, flip flop,
Mami riding shotgun, her body like a gunshot.
When you see her... baby you ready?
Because I want it right now!
I'll pull over right here,
She says right here yeah yeah.

And I say uhh baby,
The things that we can do baby.
The things I'll do to you baby.
The things you'll do to me baby.
Cause there's something about your body,
That makes me want your body. baby
She asked are you romantic?
I said nah baby, I'm a freak!

You me backseat, that's me.
I do what your man don't.
Just call me when you need me, believe me it's easy.
I want to please you
till you yell Jesus.

And I say uhh baby,
The things that we can do baby.
The things I'll do to you baby.
The things you'll do to me baby.
Cause there's something about your body,
That makes me want your body. baby
It's all about me and you.
You and me and three of your girlfriends.
