Pitbull slash Q-Bon

Yo

One time for Heavy Management, Baja Pantie

Them 6 - 7 Boys

Welcome to Miami where them boys used to touch
tourists on a daily basis

Duck charges therefore hardly caught cases

This is a city full of culture and different races

Where all the mami's come fully equipped at young
ages

With the hurricanes cause even the biggest hurricane
couldn't phase us

We got a dome for the Heat that put y'all to sleep
and we carry hits from night till morning

Like Marino strong armin' the game

but I'm not retiring till I got a championship ring

poppin champagne simple and plain

check the map and look where we at

the bottom, simple as that

I'm bringing it back to the fore-front

like Luke in the 2 Live Crew days

he's the one that's got these mami's going two ways

"Oye"

God bless Uncle Al but knowin him MIA was probably
engraved

on the tombstone that stands over his grave to this
day!

HEY

So if your visitin our city and your sittin pretty on duce
tres

or duce fours watch where you park your whip

cause they will leave it sittin' on bricks awfully quick

"Yeah this is for everbody in Miami"

"Put them 305's up"

"It's about to get ugly!"

"Que Vuelta"

Welcome to Miami where they Hustle hey

And they ride duce tres like everyday

Palm trees blue skies ganstas and goons

Where parties dont stop till the next afternoon

Welcome to Miami where they Hustle hey
And they ride duce tres like everyday
Palm trees blue skies ganstas and goons
Where parties dont stop till the next afternoon

Westchester and West Miami
where the heavy-weighters move to raise their families
South Miami always showed me love them boys from
the Creek
Lee Park and THC knew me before PIT
South Miami Heights, Carib Villas
South Wood apartments the Square, Goulds, Naranja
them boys throw dubs on Bangis

Kendall got them mamis that taste like candy
OT that's where you can catch Piccalo hollerin 4 LIFE
When I'm downtown I check out the shoe gallery
cause Danny always looked out for me
Eddie from 24th Street barber shop, kept me out of
trouble
I went from the waterboy to the quarterback in the
huddle
callin all the plays I live for, die for Dade
I ride for, lie for, cry for Dade
No if and or buts about it, I'm from Dade

Watch where you hang out in the Grove cause you'll go
from
havin a grand in hand to layin stiff on Grand Ave
I can't forget Liberty City and those notorious polka
beans
and Scott Projects where nothing's clean
Miami's where we double the money
cause of course we triple the beams

If you live for die for this city
I want y'all to represent where your from and throw'em
up. 3 0 5

Welcome to Miami where they Hustle hey
And they ride duce tres like everyday
Palm trees blue skies ganstas and goons
Where parties dont stop till the next afternoon

Welcome to Miami where they Hustle hey

Pitts that chico from the bottom

that's about to take over the rap game that's if they
allow him
You know the city of Miami got the country spooked
y'all got Uncle Sam, we got Uncle Luke
Where the poorest city, according to census report
that's cause they didn't count all the bricks that came
through the port
Live by the code die by the code
so much cane done came thru this city we named 40th
street Bird Road
Who made Opa-Locka? Who knows
All I know is you don't wanna get caught up in the
triangle
after dark trust me bro, trust me bro
Carol City stays Cheifen, Hialeah Mango-hill them
chicos stay beefin
Alapatah A.K.A. Dominican town dique cause there's
nothing but Dominicans now
And to them little Havana boys that hold me down
bet that up, Wynwood put them up
To all the Haitians from Little Haiti that show me love
Sak Passe gracia dios ya llege
Now I'm on my way to the top bringin the bottom with
me
You got a problem with that then obviously you got a
problem with me
Pitbull putting it down for our city. Miami

Pitbull M.I.A.M.I. tike to put Miami on the map
we on the rise M.I.A.M.I. nigga shat?

Welcome to Miami where they hustle hey
And they ride duce tres like everyday
Palm trees blue skies ganstas and goons
Where parties dont stop till the next afternoon
