Its Pitbull, Lil Jon

Its my way of paying you back dog

For all the love that you gave me

(Pitbull)

I'll be more than happy

To show you how I rap

Who I am, where Im from

And whats coming up next

Fuck the glitter and gold

And all the glamour and glits

I'm here for 1 reason

And survey says! To get rich

So give me the loot (loot)

Show me the cash

Open the safe

Show me the stash

I suggest that you show full cooperation

Or end up in the hospital

getting emergency operations

Family asking doctor doctor

Will he make it through

But theres nothing that doc-doctor can do

When the chi-chi-chi-choppers

Are chi-chi-chi-chopping at you

Thats it, your done

Your finished, your through

Theres no coming back

What you think were cooking crack

Just one question dog

What the fuck are you looking at

I know its hard

Its hard to understand

But Pitbull will serve you anyway

Even underhand

Dont fuck around

because you just might end up

Under land

Im not the coward motherfucka

I'm the man

I'm the killer on tracks

call me the son of sam

I dont know if yall ready

But bet ya ass I am

(Lil Jon)

Who run this shit!

Bitch we run this shit! (What!)
