disfunction
if disfunction is a function
disfunction
if disfunction is a function
if disfunction is a function
if disfunction is a function
if disfunction is a function
than i must be some kind of genius, genius
with me it's a religion
with me it's a religion
50-thousand strong

disfunction
if disfunction is a function
disfunction
if disfunction is a function
if disfunction is a function
if disfunction is a function
if disfunction is a function
than i must be some kind of genius, genius, genius,
genius

with me it's a religion
with me it's a religion
50-thousand strong
genius, genius, genius
than i must be some kind of, genius
than i must be some kind of, genius
than i must be some kind of, genius
than i must be some kind of.
