"Stop Talking"

Reflecting my time, not wasting a second,

Exceptions aside, a favourite obsession,
Forget 'what it takes' 'cause you can't keep us down.

You're wasting your time if you don't make a sound.
Keep making mistakes, deflecting the pressure

Stop talking so loud, I can hear what you're saying

Is what you're saying.

Hold on for the ride, abuse and oppression,

A small price to pay to be the land of the free.

Keep watching the skies, it's some kind of Escher

Stop talking so loud, I can hear what you're saying

Is what you're saying.
Sometimes we all say stupid things among our sins.

We're taking our time, not wasting a second

Stop talking so loud, I can hear what you're saying

Is what you're saying.
