Sometimes I walk with my head in the clouds
And I miss all the ones that left on the ground
But we're here now, and you look scared
But just remember that there's nothing to fear
Waiting for the day...

Chorus;

I'm going to fly up in the clouds with you and see the
sun
The sun and the stars and the moon
And I can be up in heaven with you
I gotta know where I stand
Cause a leaf can't fly without the wind, yeah

There are days that I wish I could fly,
From the place where I am to the place in the sky
But we're here now and there's pain,
But I will just remember that it won't leave a stain,
Waiting for the day...

Chorus

I can't forget what I'm here for now
I gotta lot of work to do yeah, waiting for the day

Chorus
