You said when you were laying in my bed
That you wanted something different right now
Last night I roll over to your side
Only to find you are not around

After cry and tearing this room over
After searching the streets checking where you are
I realized you made the biggest mistake of your life

Cause no one is gonna love you more than me
No one is gonna see in you what I see
Every little bit of my heart believes no one is gonna
love you more

How come it feels like I lost my right arm
I can't even function right now
Would've lied, would've stole, would've died for you
Would've changed my last name if you ask me too
You realized you made the biggest mistake of your life

Cause no one is gonna love you more than me
No now is gonna see in you what I see
Every little bit of my heart believes no one is gonna
love you more

I will never be yours and no one is gonna love you more

You can kiss every girl from new york to japan
You can search the whole end but you won't find the
one
To love you like I do
To love you like I do

Cause no one is gonna love you more
Cause no one is gonna love you more than me
No now is gonna see in you what I see
Every little bit of my heart believes no one is gonna
love you more
