-...girls and fucked 'em at school
All I know is that
There were rumours he was into field hockey players
There were rumours
-So he applied basically
-He was gone the next day
-And went off with the team
-It's like - he was go-they just like
It was so hush hush
They were so... quiet about it
And then the next thing you know...

The day before
I was wed
She went upstairs
And then she cut her head away

I'm amazed (4x)

And when I was
A little boy
A ball of string
Might get up to the rain (???)

Before I died
I took my Honda
And cranked it up up up
Too bad it don't have no brakes

I'm amazed (4x)
