The engine goes the plane whistles down the pilot gives up hope

He knows his chances are slim when he hits the ground

As the women screams in the burning house the smoke engulfs around

She slowly knows there's no exits to be found

As they realise there's no compromise, no more love left gotta go

Before they close their eyes they shout up to the sky

Give me one more chance before you bring me down

Give me one more chance to show you

Give me one more try to turn my life around

Give me one more chance and III show you

The car has turned and slowly burns there's leaking fuel around

The drivers trapped and awakes to the siren sounds

He panics first and he expects the worst and tries to reach out for his phone

To tell his wife and kids he wont be home

Give me one more chance before you bring me down

Give me one more chance to show you

Give me one more try to turn my life around

Give me one more chance and III show you

The pilot smiles and wonders why the engines just came on

The fire subsides, with relief she cries as the fireman stares hello

A hand comes through and pulls him out before he has a chance to make the call

Given one more chance to prove that he was wrong

Give me one more chance before you bring me down

Give me one more chance to show you

Give me one more try to turn my life around

Give me one more chance and III show you

Give me one more chance before you bring me down

Give me one more chance to show you

Give me one more try to turn my life around

Give me one more chance and III show you
