"Dance With You"

The club is crowded
I go to the bar
Reaching for my wallet
But I left it in the car
It doesn't matter
I'm just here to dance
The rhythms flow I'm in a state of trance

Glance at the stage
See you, wild and sexy
See me now
Feel the attraction
You're close to perfection

I wanna dance with you tonight
Feel your body next to mine
It feels so right
The sparkles in your eyes
The moves you make
I'm under your spell, can't you tell

I wanna dance with you tonight
Feel your body next to mine
It feels so right
You're so beautiful
No words can say
Dance with me, I'll take your breath away

You see my affection
Do you want me to
There is no one other baby
All I want is you
Read between the lines
I wanna take you home
How far we'll go, is up to you alone
