All ya people out there
Listen to our song
Be ready to be swept away
Cause we are here to stay
Ladies and gents
We want you to
Put... Your... Hands... Up!

Put your hands up in the air
Everybody's going wild
Hear the music, feel the beat
Shake your as and move your feet
Put your hands up in the air
Everybody's going wild
If you don't know how to dance
Jump around and move your hands

Put your hands up in the air
Everybody's going wild
Hear the music, feel the beat
Shake your as and move your feet
Put your hands up in the air
Everybody's going wild
If you don't know how to dance
Jump around and move your hands

All ya boys and girls
Dance with us
Cuz this rocks
Pump the bass
Feel the flow
Don't ever let it go
This is what we do
And now you do it to
Put... Your... Hands... Up!
