(Verse)

Knock me right to my knees
Greatest thing that I ever seen in all of my days
What am I gonna do

I think I'm in love with you

(Chorus)

I don't usually believe it but I think it's true
'Cause I'm feeling that the minute that I saw you
Ever since the day I can't get you off of my mind
Guess I got a case of love at first sight
Love at first sight

(Verse)

Somebody help me quick
Don't know how I'm supposed to handle this feeling
Never have been before
But I think I want more

(Chorus)

I don't usually believe it but I think it's true
'Cause I'm feeling that the minute that I saw you
Ever since the day I can't get you off of my mind
Guess I got a case of love at first sight
Love at first sight

(Bridge)

I've got the love, the love
I've got the love at first sight
I've got the love, the love
I've got the love at first sight

(Chorus)

I don't usually believe it but I think it's true
'Cause I'm feeling that the minute that I saw you
Ever since the day I can't get you off of my mind
Guess I got a case of love at first sight
Love at first sight
