(Verse)

It's ok you can be honest with me
I've watched our decline gradually
Put into reverse wants to be the one to see it

So now we have the self offence sitting in our room
And our love is resting in peace in a tomb
But we're acting like nothing's even changed

(Chorus)

Oh where'd you go ,missed you so
I know you're standing here but your heart's been gone
And that's the thing that really matters to me
I don't wanna be just going though the motions
I don't care about the physical
If I don't have the emotional
I don't want half of you gotta have all of you
I don't wanna be just going though the motions

(Verse)

I think it's time for you to tell me the truth
Don't hold back tell me what you wanna do
We can't continue on like this
This is nowhere to live
We need to get ourselves together
And if you want to fight the lance give it all you got
And if you think our time is done at least we gave it a
shot
But whatever we do
Let's just make sure that it's real

(Chorus)

Oh where'd you go ,missed you so
I know you're standing here but your heart's been gone
And that's the thing that really matters to me
I don't wanna be just going though the motions
I don't care about the physical
If I don't have the emotional
I don't want half of you gotta have all of you
I don't wanna be just going though the motions

(Bridge)

I don't wanna be going..

Going..

Going..

Going through the motions

I don't wanna be going..

Going..

Going..

Through the motions

Just going..

Going..

Going..

Going through the motions

Please don't have me going

Going..

Going..

Going through the motions..

Going..

Going..

Going through the motions..

Going..

Going..

Going through the motions..

(Chorus)

Oh where'd you go ,missed you so

I know you're standing here but your heart's been gone

And that's the thing that really matters to me

I don't wanna be just going though the motions

I don't care about the physical

If I don't have the emotional

I don't want half of you gotta have all of you

I don't wanna be just going though the motions
