Verse 1

Hey Girl
What's your name?
Seems like I've seen you before
Been watching you the whole night
Since you walked through the door
I think, I know where I've seen you
Seen you in my dreams
We were together, had a family,
It felt like reality

Chorus

I think she just might be the one, the one
I think she just might be the one, the one
I think this girl might be the one, the one
I think she just might be the one, the one

Oh ah

I think she just might be the one, the one
I think she just might be the one, the one
I think this girl might be the one, the one
I think she just might be the one, the one
I think she just might me

Verse 2

I can't stand it
It's killing me
Wondering how we would be
IF we were together
Like in my dream
Cause we were so happy

Ohhh you look like her
Even walk like her
Is it coincidence
Or were we bought together
Because it was meant

I

I think she just might be the one, the one(the one)

I think she just might be the one, the one (you might be
the girl of my dreams)
I think this girl might be the one, the one (she might be
the one)
I think she just might be the one

Oh ah
I think she just might be the one, the one
I think she just might be the one, the one (might be the
one)
Ohh I think this girl might be the one, the one(oh ohh)
I think she just might be the one
She might be the one

I think she just might be the one, the one(the one)
I think she just might be the one, the one (I think she
just might be the one)
I think this girl might be the one, the one
I think she just might be the one, the one
I think she just might be the one, the one
She looks like her and even walks like her
Lifetime, I'm gonna one night her

If you're the one and you know it
Not afraid to show it wave your hands ohh X 4

Oh
I think she just might be the one, the one(I think She
might be the one)
I think she just might be the one, the one (She might be
the one)
I think she just might be the one, the one (She might be
the one)
I think she just might be the one, the one(She might be
the one)
I think this girl might be the one, the one(oh She might
be the girl of my dreams)
I think she just might be the one, thee one
I think she just might be the one, the one (She might be
the one)
I think she just might be the one, the one (She might be
the one)
