Any means in your horizon
Heaven in a tourniquet
The afterlife to keep your eyes on
Bitter pill you take you take today
With expert levitation forward
Polished to the nth degree
It takes it's smile from every children
You take the beating

Any means in your horizon
Every mink walks two by two
We gamble to be born again
You know I never wanted to
With expert levitation forward
Polished to the nth degree
It takes it's smile from every children
You take the beating

The light divining, the light defining
The light divining, the light dividing

Don't let me down
Let me-he
Let me down
Don't let me
Don't let me down
Let me-he
Let me down
Let me

Don't let me down
Let me-he
Let me down
Don't let me
Don't let me down
Let me-he
Let me down
Let me

The light divining, the light defining
The light divining, the light deviding
