I refuse to remain in regret  
To pander like a slave to your wants  
No contrition from me will you get  
No submission to dilettantes

Iâ€™ve existed too long in secret  
I have lived like a man confined  
Epicene and elaborate  
Fatalistic and resigned

Passionflower  
Catherine wheel  
Higher power  
Help me start to heal

Now I've bathed in the sea of sunset  
And the rain washes clean my mind  
Every one of my needs will be met  
Every planet will be aligned

Passionflower  
Catherine wheel  
Higher power  
Help me start to heal

Over power all my fear  
From hour to hour  
Guide me through the realm

I refuse to remain in regret  
I refuse to be left behind

Passionflower  
Catherine wheel  
Higher power  
Help me start to heal
